

Care & Maintenance

Your decision to purchase International Library Furniture Co brand furniture will bring you years of quality performance.

Everyday cleaning of our products is as simple as a quick wipe with a damp sponge.

Be sure to read and follow the recommended care and cleaning procedures.

Routine Care

To clean the surfaces use a damp cloth or sponge with a mild soap or detergent. We recommend Murphy's Oil Soap. It seems to be the best for this application. It can be diluted by water or used straight from the bottle.

Difficult stains can be removed using a number of non-abrasive mild household cleaners.
See list provided.

A Few Notes of Caution

- Acidic or abrasive cleaners can damage finish and laminate surfaces
- Acetone or other solvents will damage finish if spill wipe up immediately and gently blot area dry. Scrubbing or rubbing hard may cause a dulling in the finish.
- Do not allow furniture sit or stand in water. Quickly remove the furniture from wet area and dry with towel.
- Use furniture polishes and waxes sparingly as a wax buildup will form and discolor your finish. We recommend wax twice a year.

Recommended Household Cleaners

- Windex
- Murphy's Oil Soap
- Pledge
- Formula 409
- Armor All
- Old English*

*Select proper Old English color to match.
